FYI—Please see attached.

Today, the Administrator signed the proposed rule “Strengthening Transparency in Regulatory Science.” I thought everyone would be interested in reading the document themselves, rather than just relying on other interpretations.

In this notice, EPA solicits comment on this proposal and how it can best be promulgated and implemented in light of existing law and prior Federal policies that already require increasing public access to data and influential scientific information used to inform federal regulation.

Please let me know if you have questions.

Nancy
